Student Training Placements

6 month placement commencing September 2011

6 month placement commencing February 2012

The Chartered Institute of Environmental Health is the professional and educational body for environmental health in England, Wales and Northern Ireland. It is a charity and independently funded NGO. It is a campaigning organisation, and works to push environmental health further up the public agenda and to promote improvements in environmental and public health policy. For detail of the activities of the CIEH in Wales go to www.cieh-cymruwales.org

CIEH Wales Directorate is offering 2 unpaid student placements, each for a 6 month period, based at the Directorate office in Cwmbran.

Working with the Director CIEH Wales and directorate staff the successful candidate will experience high level strategy and policy development, engaging with a variety of stakeholders including Assembly Members, other organizations and environmental health professional groups. In addition the successful candidate will be assisted to achieve a wide range of interventions to satisfy the requirements of the Experiential Learning Portfolio through the managed and directed use of the Directory of Student Training Opportunities and will be able to attend at conferences and training courses hosted by the CIEH Wales Directorate. There may also be opportunities to engage in research projects, which include projects that would satisfy the dissertation requirements of the BSc Environmental Health course. Students wishing to discuss the placement can meet with the Director CIEH Wales and a student currently on placement with CIEH at the CIEH stand at the Milk Round to be held in UWIC on Thursday 26th January 2011.

The placements are unfunded however opportunities will arise for the successful candidate to undertake pieces of remunerated work on an ad hoc basis.

The successful candidate must have access to a car and hold a current passport.

Interviews for both placements will be held on Wednesday 2nd March 2011, at the Directorate offices in Cwmbran.

Application Details : Applicants should send a short personal statement (not to exceed 1000 words) outlining how they feel that their career in environmental health would benefit were they to be successful on obtaining this placement, along with details of their first year BSc Environmental Health examination results or date of completion of MSc Environmental Health and personal contact details as email attachments to an email titled ' Student Placement Application' to Gail Gerrard g.gerrard@cieh.org to be received by Thursday 10th February 2011. Applicants should also indicate which of the two placements offered would be their preferred option.

All applications will be acknowledged by email. Late applications will not be accepted.
